

# List of compatible devices with Actifry Smart XL

## Android devices compatible with ActiFry Smart XL

This application is conceived to work with a large range of smartphones and tablets Android™. Nevertheless this compatibility depends on the brand, the model and the Android version of your device.

In order to benefit from this application, your smartphone or tablet must be updated with the version Android™ 4.3 or more and must have Bluetooth Low Energy (BT4.0).

Please find below the list of tested and functional devices with My ActiFry applicaiton and ActiFry Smart XL.
